## Fiction or nonfiction

---

Read each passage. Is it fiction or nonfiction?

<p>Whales are the largest animals on Earth. They live in oceans and can dive to great depths to find food. There are different types of whales, such as humpback whales and blue whales. Whales communicate with each other through songs that travel long distances underwater.</p>	Fiction	Non fiction
<p>One evening, a magical owl named Oliver visited the village. He told the villagers that they could make their wishes come true if they helped him find a hidden treasure. The villagers followed Oliver through the forest and solved riddles to uncover the treasure, which turned out to be a chest full of sparkling jewels.</p>	Fiction	Non fiction
<p>Clouds are made up of tiny water droplets or ice crystals. They form when warm, moist air rises and cools down in the atmosphere. There are different types of clouds, including cumulus clouds, which are fluffy and white, and cirrus clouds, which are thin and wispy. Clouds can bring rain, snow, or storms.</p>	Fiction	Non fiction
